

May 15, 2025

Dear Countryhouse Resident,

Pest & Termite Consultants will be conducting annual termite inspections on **Thursday, May 22rd, from 8:00am until 4:00pm**. The inspection is necessary to ensure that we eradicate and minimize the destructive nature of these pests. Termites can destroy the structural integrity of your home/unit if not detected and properly treated.

The inspector will need access to crawlspaces and interior of garages.

Here is the procedure to get your home inspected:

Pest & Termite inspectors will knock on doors during the inspection period and they will inspect those homes as contact is made with each resident. The inspector will be wearing a company uniform (blue trousers and blue shirt with company name of the shirt). Company pickup trucks are also blue with the company name on the driver side door and tailgate.

You may schedule a specific time in advance for May 22rd by calling Pest & Termite Consultants directly at 919-870-8003.

Please remember to leave crawl spaces and garage doors open if you will not be present for the inspection. The inspection cannot be conducted if they do not have access. We will schedule one more inspection date for the units that are locked during the first inspections. If your garage is locked for both inspections, you will be required to schedule an inspection at your expense and share the report with Mill House Properties. Those who do not comply may lose access to their assigned garage.

Your cooperation is greatly appreciated. If you have any questions, please contact Annetta Hoggard at 919-448-5150 or hoa@millhouseproperties.com.

We appreciate you being available during this inspection and if you cannot be, please plan ahead and have a neighbor or friend cover in your absence.
