

SOUTHERN OUTDOOR RESTORATION

Attention Residents of Countryhouse Service Group:

The Board of Directors, via your property management with Mill House Properties, has directed our company to notify residents that we will be cleaning gutters in your community **June 15th - 19th, 2026, weather permitting.**

We will be blowing out all debris in the gutters and checking downspouts for clogs. You do not need to move any furniture or be at home for this work; however please note that we will clear any gutter or roof debris that may fall onto your walkways or decks. If there is a lot of furniture currently on your deck, we will do our best to work around it. If you have a locking gate, please ensure it is unlocked on your service date or we may not be able to fully access your unit.

If you have any concerns, please review our gutter cleaning FAQ or contact us through **www.southernor.com/gutters**. Alternatively, please feel free to contact me directly with any questions or comments regarding this project.

We look forward to providing you a crisp, clean, and courteous result. Thank you in advance for your cooperation.
